

JIUHE 25m Hydraulic Platform Truck With Truck Mounted Hydraulic Aerial Work Platform With Bucket

Our Product Introduction

for more products please visit us on concretepumpstrucks.com

Basic Information

- Place of Origin: CHINA
- Brand Name: JIUHE
- Certification: ISO CE
- Model Number: 25m
- Minimum Order Quantity: 1
- Price: 20000USD-37000USD
- Delivery Time: 15 WORKING DAYS
- Payment Terms: L/C, T/T
- Supply Ability: 100SET

Product Specification

- Model: 25m
- Name: Aerial Platform Truck
- Dimensions (L X W X H) (mm): 5995*2270*3900mm
- Rated Load: 200kg
- Highlight: 25m hydraulic boom lift bucket truck, boom lift bucket truck work platform, 25m hydraulic truck work platform

Product Description

JIUHE 25m hydraulic platform truck with truck mounted hydraulic aerial work platform with bucket

Main advantages

- 1.Outstanding Working Height: Our 25-meter Aerial Work Platform with Articulated Boom is equipped with a powerful telescopic boom that effortlessly reaches a maximum working height of 25 meters. This makes it suitable for a wide range of high-altitude tasks, such as building maintenance, tree trimming, and light fixture replacement.
- 2.Soft Leg Protection: Our 25-meter aerial work platform features intelligent soft leg protection. This function is designed to ensure the safety of operators. When the supporting legs encounter irregular or uneven terrain, the system automatically detects and halts upward movements to

prevent vehicle instability or tipping.

3.Cabin Collision Prevention: To further enhance safety, our high-altitude vehicle is equipped with a cabin collision prevention feature. When the boom rapidly approaches the cabin, the system automatically stops the motion to prevent accidental collisions or trapping of the operator.

4.Single-Leg Operation: To improve operational flexibility, our aerial work platform allows for single-leg operation of the supporting legs. This means that in confined spaces, you can easily carry out high-altitude work without the need to set up the entire supporting leg system, saving time and labor.

5.Remote Wireless Control: Our high-altitude vehicle is equipped with an advanced remote wireless control system. This allows operators to have precise control over the vehicle while remaining in a safe position, away from potential risks. This feature is particularly valuable when working at heights or in situations where close proximity to the vehicle is inconvenient.

6.Ease of Maintenance: The design of the high-altitude vehicle takes into consideration ease of maintenance, reducing the time and cost associated with maintenance and servicing. This ensures the equipment's reliable operation over an extended period.

item	value
Transmission Type	Manual
Condition	New
Emission Standard	EURO 5
Fuel Type	Diesel
Dimensions (L x W x H) (mm)	5995*2270*3900mm
Place of Origin	China
	Shandong
Brand Name	JIUHE or JH
After-sales Service Provided	Onsite Installation, Video technical support, Overseas Call Centers, Field installation, commissioning and training, Online support, Free spare parts, Field maintenance and repair service
Horsepower	< 150hp
Engine Capacity	6 - 8L
Maximum working height	24.3m
Maximum operating range	18m
Rated load	200/100kg
Total weight	4995kg
Soft foot protection system	Equiped
Interlocking protect system	Equiped
Working bucket size	1300*700*1140&1600*800*1140
Control system	Electro hydraulic proportional control
Boom type	Four sections Hexagon
Total length	5995mm

Development strategy

Strives for the survival by the quality, seek development by science and technology

Corporate philosophy

People-oriented, science and technology enterprise, recruiting high level scientific and technological personnel, actively introduce advanced technology at home and abroad

JiuHe Service

As a professional company, we promise as following:

JIUHE HEAVEY INDUSTRY MACHINERY service system MAX customer experiences.

A. Pre-sales service:

1. Selecting the most suitable equipment,
2. Designing your personal machinery according to special construction demands,
3. Training your technicians to operate our equipment,
4. Providing advice to ensure equipment running well in various construction environments,
5. Making new construction scheme if necessary.

B. Sales service:

1. Equipment delivery transport agent,
2. Equipment quality control before delivery,
3. Introduce our service system to customers.

C. After-sales service:

1. Making the first construction scheme,
2. Installing and debugging your equipment,
3. Troubleshooting on site, prompt and initiative,
4. door to door accessories and parts,
5. Opportunities to get technical communications with our engineers.

D. Value-added service:

1. Overall process and zero distance technology tracking service for key projects,
2. Carry out large maintenance business,
3. Regular equipment checking service,
4. Technology update,
4. Provide professional periodic maintenance standards for customers.

JIUHE HEAVEY INDUSTRY MACHINERY Service Commitments for sold equipment:

1. Dispatch technicians to install and debug equipment in time if necessary,
2. Provide free maintenance service for the products which have product quality problems within a year after the delivery,
3. Provide free operation and maintenance training service for users

4. Provide lifelong paid maintenance service, accessories and parts supply for the sold products.
