Truck Mounted Concrete Pump with ISO and CE

On the basis of mature electric commutation concrete pump production, after years of efforts, we developed truck mounted concrete pump with better performance. By improving main system pressure, reducing pressure loss, making normal truck mounted concrete pump outlet pressure invreased to 20Mpa, pumping height reach 260m, pumping efficiency up to 120m³/h, power system with high-usage rate, commutation time ≤ 0.2 s, reduce concrete output pause time, each minute commutation frequency improved by 2 times.
